- **Capitol University** August 2018 - June 2022
  Bachelor of Science in Information Technology
- **ZUITT TECH PROGRAM** September 2026 - November 2026
  Main Course Package (MERN) - Full-stack Web Development

Projects

- **Static Personal Portfolio**
  Project Title: Personal Portfolio Website (Capstone1)
  https://butanasjikirigit.github.io/webportfolio/
  Description:
  - Designed and built a personal website portfolio moving from inital Figma wireframes and Stitch visual mockups to a fully functional site built with HTML, CSS and bootstrap. Applied core grid and layouts rules focusing on contrast, repetition, alignment and aproximity with Bootstrap's responsive grid to deliver a clean UI, smooth user interactions, and optimal viewing across all screen sizes.

Additional Skills

- Highly organized and efficient
- Ability to work independently and as a team
- Cooperative and ability to adapt new trends
- Can work under pressure

- Proficient in Microsoft Office
